Note: Each grade of the Reading Criterion Scale needs children to be reading books in the appropriate grade band in order to assess their reading effectively and accurately. Highlight the criteria when it is secure.

Making a judgement:

Once the grade has been completed, add up all the ticks (V). Use the total number of ticks to find the sub-grade within which the child's reading falls.

If a child scores exceeding, assess for the next year.

IMPORTANT NOTE – if the child has to be assessed for the next year they MUST use the age-appropriate text for that year. This is because when using the grade we are assessing TWO things – the child's ability to read an age-appropriate text, and the child's ability to understand that age-appropriate text, looking at key skills for that particular year.
